

Your Executive Board is sending this note to all Post 102 members as an appeal for assistance.

Our monthly income stream has been steady, 'just enough' to meet the Post's monthly expenses, with not much left over. Essentially, no breathing room. At some point in the near future we will be faced with the expense of needed repairs & replacements to our wonderful building, with no monies to do so.

In the past we've asked for help in the form of a 'Building Fund' and the membership replied very generously. That money was used to pay down the principal on our mortgage, which we did. With that said we are again asking that every member contribute \$10 per month, \$120 per year, beginning in January 2015, to help finance up & coming repairs. These will include, but not limited to , repairs to the banquet room ceiling and replacing the banquet room carpet, which is definitely showing wear.

Our facility, at 7 years old, is still very nice and we are very fortunate to have it. However, it takes a lot of hard work by a few dedicated members to keep it that way. By keeping our Post looking great we can continue to attract a number of diverse events to our banquet room, which is a great source of income for our Post.

This is **YOUR CLUB** and it needs your support!

Thanks to all,
Post 102 Executive Board

November 2014
